Outreach Programme on “EDUCATION FOR ALL CAMPAIGN”

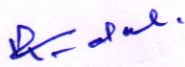

Education is the basic building block of every society. It is the single best investment countries can make to build prosperous, healthy and equitable societies. Article 26 of the 1948 Universal Declaration of Human Rights states that “Everyone has the right to education.” There are many people in the world who are not able to receive basic education (3 R’s) such as Reading, Writing and Arithmetic (Literacy) skills.

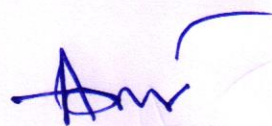

on 11.04.2023 at 10:30 am IQAC Cell, Jibantala Rokeya Mahavidyalaya worked in close collaboration with Howramari Milan Sangha (Social Organization) to make the villagers of Howramari under Canning-II block understand the importance of the Education for all campaign.

We have noticed while teaching in college that students of Howramari area are mainly first-generation learners. In many cases it has been seen that the parents of the area are not educated and cannot sign or write anything. Most of the time they run their business by giving thumb impression. Again, in many cases it has been seen that boys and girls are getting married at a very young age and as a result they are leading an uncontrolled and disorderly life. In such a situation, the IQAC Cell of our college decided that if a discussion regarding the Education of the parents of this area can be reached, by going to their neighborhood, then they can be made aware of the need for education and that without education, the progress or development of the society or the neighborhood is not possible. It is true that many meetings are held politically in many cases but our initiative was to increase their acceptance when we will convince them being from an educational institution.

At the end of the discussion, it can definitely be said that the interest shown by the parents and the many curious questions they asked shows that this campaign has been a success and, in the future, we will reach out to many more such small villages which are located in the vicinity of our college.
