“Providing Cooked Food in Locality During the COVID-19”

Coronavirus outbreak has brought the world at its feet and has created an international pandemic emergency situation. With the spread of corona virus also known as "COVID-19", a nation-wide lockdown has been announced resulting in many needy and homeless people facing shortage of food and essential items required for their survival during the pandemic. While the country's economic structure took a major hit, it was these financially challenged sections who had it the harshest.

To help them during such crucial times ...on **16.04.2020**, NSS unit, Jibantala Rokeya Mahavidyalaya worked in close collaboration with MLA fan club to provide foods to near about **200 families** of Canning-II block.

Since the Corona pandemic was going on, very few students of NSS unit, local peoples, the students of the student union of the college and the nearby professors of the college were equally involved with the MLA fan club workers.

The families were given rice, dal, potato curry and fish. Cooking was started at 3 am at night and finished in the morning 11 am so that families can get these foods at their lunch. In the noble work MLA, Canning purba himself helped the team to reach the foods to the families.
