## POLICY FOR ENERGY USAGE

**Jibantala Rokeya Mahavidyalaya** is committed to energy conservation and efficient energy management to minimize environmental impact. Our Energy Usage Policy aims to integrate efficiency and environmental awareness into our daily activities, thereby fulfilling our responsibility to conserve natural resources and limit energy usage. The following guidelines are intended to manage and reduce energy consumption across the entire campus. These guidelines are to be followed by all staff, faculty, administration, and students.

### Policies:

- **Assess and Measure:** Regularly assess source energy usage and measure its environmental impact.
- **Reduce Emissions:** Reduce local air pollution by promoting the use of environmentally friendly vehicles, including bicycles, public transport, and pedestrian-friendly roads.
- **Solar Energy:** Introduce photovoltaic solar panels to generate alternative energy.
- **Energy-efficient Lighting:** Install more LED bulbs across the campus to save energy.
- **Advanced Technology:** Encourage the use of advanced technology to minimize energy consumption, atmospheric emissions, and noise, particularly from our vehicle fleets.
- **Monitor Issues:** Monitor and respond to emerging environmental and energy issues.
- **Environmental Education:** Strengthen the environmental knowledge and skills of employees and students to improve our performance.

- **Training and Information:** Provide information and training opportunities on energy-saving measures.
- **Engagement Opportunities:** Offer opportunities for employees and students to engage in initiatives that contribute to environmental protection.

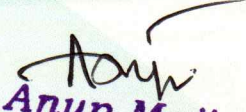

## Responsibilities:

- **Lights:** Turn off all lights before leaving a room.
- **Computers:** Turn off computers at the end of the day.
- **Equipment:** Keep xerox machines and printers on standby when not in use.
- **Windows:** Keep windows closed when ACs are on.

## Facilities Management Practices:

- **Energy-efficient Purchases:** Purchase energy star-compliant equipment whenever possible.
- **Renewable Energy Integration:** Incorporate renewable energy into projects whenever feasible.
- **Lighting Upgrades:** Replace existing less efficient lighting with energy-saving fixtures, lamps, and bulbs whenever possible.

This institutional policy will be communicated to students and employees via the institutional website. The Energy Policy, objectives, and targets will be reviewed on a regular basis to ensure continued improvement and adaptation to new energy-saving opportunities.
